

## **FIRE EVACUATION FROM THE SANCTUARY**

To comply with current Health and Safety Regulations, Kinross Parish Church has implemented the following plan to evacuate the Sanctuary in the event of fire;

**GROUND FLOOR.** Unless it is dangerous to do so, members sitting on the South (left) side of the Sanctuary should leave by the emergency exit by the organ. Members on the North (right) should leave by the emergency exit on that side. Both exits are clearly signed. **ON NO ACCOUNT** should members leave by the front door, unless other exits are unusable.

**GALLERY.** Members seated in the gallery and the creche should exit by the stairs and thence through the main door. The Fire Assembly point is designated as by the front gate in the garden.

**Members are requested to familiarise themselves with these arrangements.**
